

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

5 Claims 1-26 (cancelled)

 Claim 27 (previously presented): A delivery system for mycotechnologies comprising:

a) a cardboard box;

b) a fungal inoculant of saprophytic and mycorrhizal fungi selected from the
10 group consisting of spores, mycelium, powdered mushrooms and combinations thereof; and

c) seeds.

 Claim 28 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the fungal inoculant and the seeds are
15 packaged separately from the cardboard box.

 Claim 29-32 (cancelled)

 Claim 33 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the seeds are seeds of plants selected from the consisting of vegetables, cereal crops, fruits, herbs, spices, trees,
20 shrubs, bushes and other agriculturally useful crops.

 Claim 34 (original): The delivery system for mycotechnologies of claim 27

further comprising a material selected from the group consisting of liquids, glues, adhesives, tackifiers and combinations thereof.

Claim 35 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the cardboard box is infused with the
5 fungal inoculant and the seeds.

Claim 36 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the cardboard box is at least partially filled with a fiber substrate.

Claim 37 (original): The delivery system for mycotechnologies of claim 36
10 wherein the fiber substrate contains the fungal inoculant and the seeds.

Claim 38 (original): The delivery system for mycotechnologies of claim 27 wherein a liquid contains the fungal inoculant.

Claim 39 (previously presented): The delivery system for mycotechnologies of claim 38 wherein liquid fungal inoculant is applied to the
15 cardboard box.

Claims 40-41 (cancelled)

Claim 42 (previously presented): The delivery system for mycotechnologies of claim 35 wherein at least a portion of the cardboard box is infused with the fungal inoculant and the seeds.

20 Claim 43 (original): The delivery system for mycotechnologies of claim 42 wherein the cardboard box becomes a medium for growth when the box is

disassembled and water is added.

Claim 44 (original): The delivery system for mycotechnologies of claim 42 wherein the cardboard box is a component of an educational kit.

Claim 45 (cancelled)

5 Claim 46 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the cardboard box is a component of a rescue kit for refugees, indigenous displaced persons and victims of natural and man-made disasters.

Claim 47 (cancelled).

10 Claim 48 (original): The delivery system for mycotechnologies of claim 27 wherein the seeds are seeds of annual plants for use in creating seed stock for future plantings.

Claims 49-96 (cancelled)

15 Claim 97 (original): A composition comprising a cardboard box, saprophytic fungi, mycorrhizal fungi and seeds.

Claim 98 (original): A biodegradable box comprising a cardboard box inoculated with saprophytic fungi and mycorrhizal fungi and seeds.

20 Claim 99 (previously presented): The delivery system for mycotechnologies of claim 27 wherein the cardboard box comprises a material selected from the group consisting of corrugated cardboard and pressed cardboard.
